

# BATSIRAI MADZONGA

DESIGN PORTFOLIO

“Any sufficiently advanced technology  
is indistinguishable from magic.”

- **Arthur C Clarke**

For me, underneath this thought provoking quote lies a fundamental design challenge. To create an interface with technology so intuitive and powerful that it transcends the limitations of the physical world.

## INTRODUCTION

I have over 9 years experience working in advertising and design and am a graduate of the University of Cape Town with a BSc. Computer Science. My passion for design spurred me to start my own design agency after university. It is during this five year period that I enhanced my skill sets ranging from concept creation, software and website development, UI/UX and advertising.

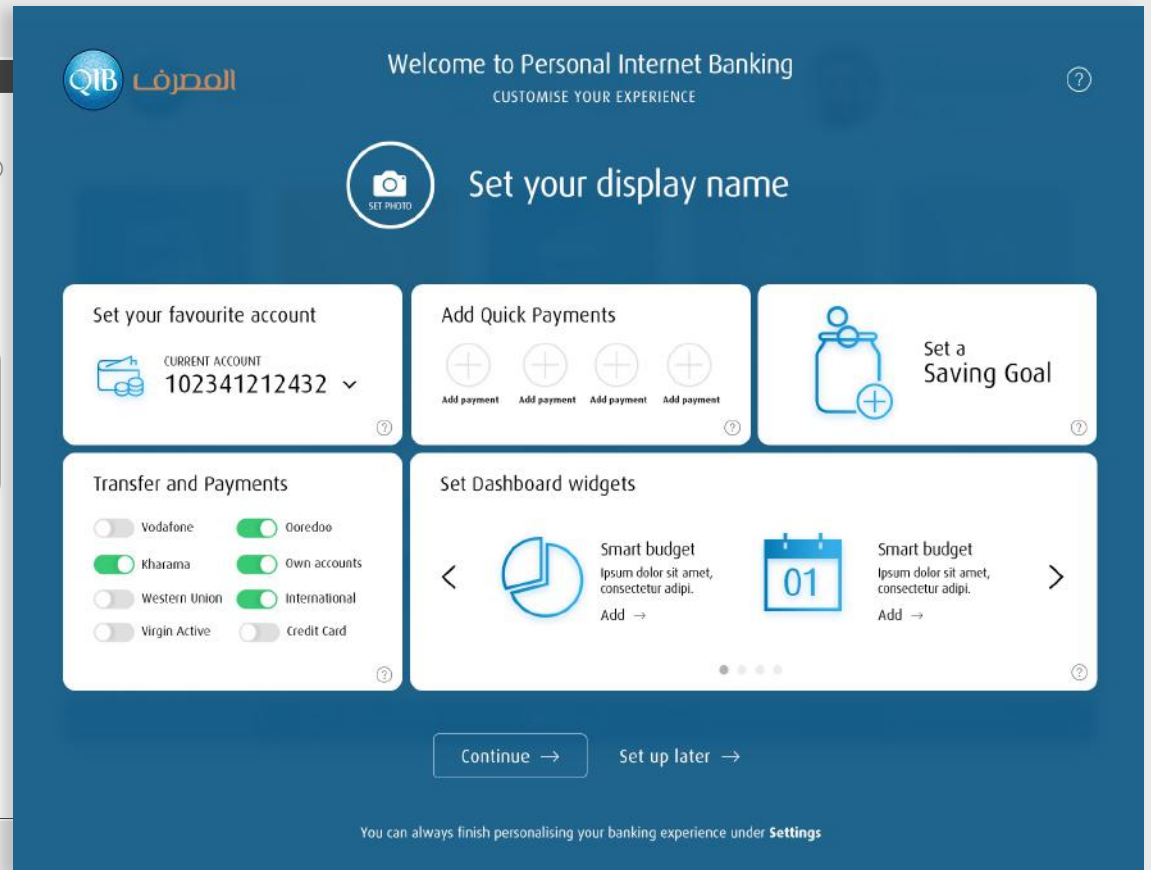

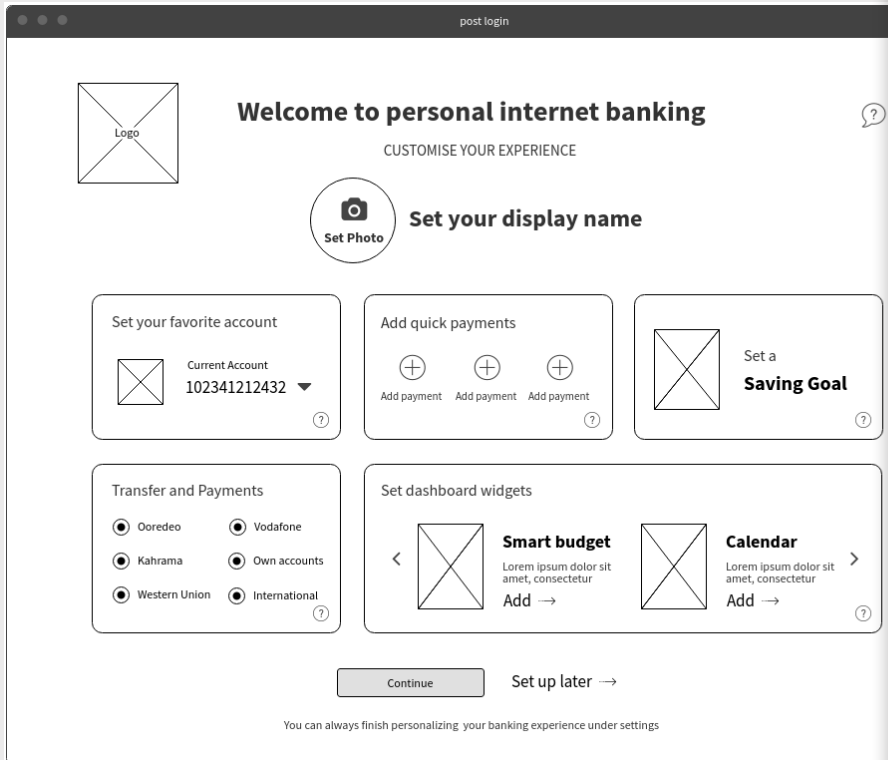

I then moved to Wunderman South Africa to work as a Senior Digital Designer, and was promoted to Associate Creative Director within nine months. There I worked on global accounts such as Coca Cola, Mercedes-Benz, MTN, DStv and Standard Bank. It is for

Standard Bank that I was involved in the early stages of a multi-million dollar digital transformation program that had a focus on User Centered design.

This experience led to me to join BPG Possible, Dubai as a User Experience Designer, and was reassigned to be the agency's Creative Technologist after ten months.

This portfolio is a curated assortment of works that represent my lifelong dedication to design. Enjoy!

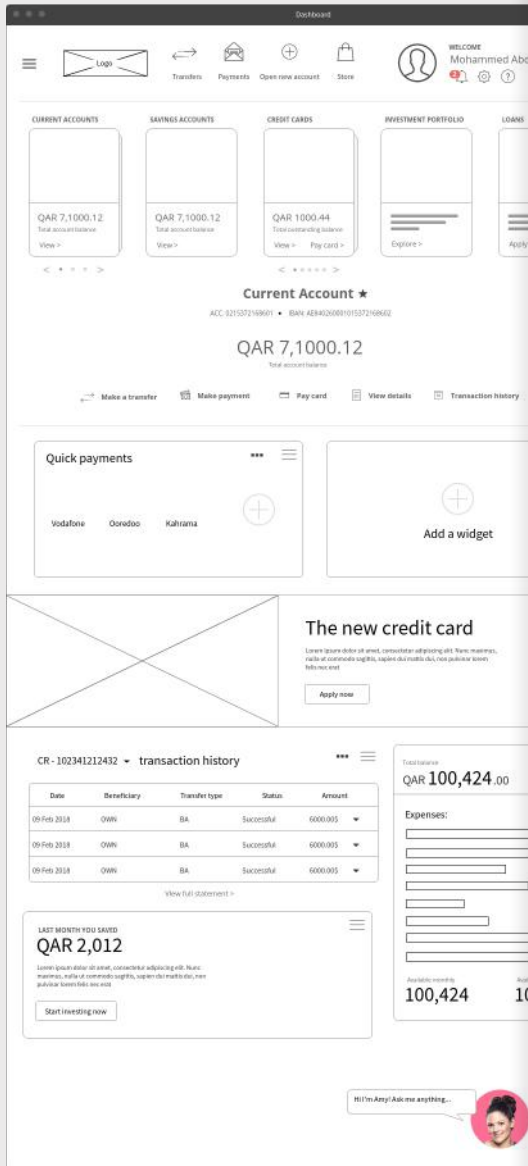

**Batsirai R. Madzonga**

## UI/UX

### User onboarding

A simple-to-use on boarding screen. On logging onto RIB for the first time, customers can set-up their personalized preferences to help customize their future experiences.

## UI/UX

### The Dashboard

The Dashboard forms the most important page of the RIB journey. Global statistics showed that the dashboard is used by 18% of internet banking customers everyday.

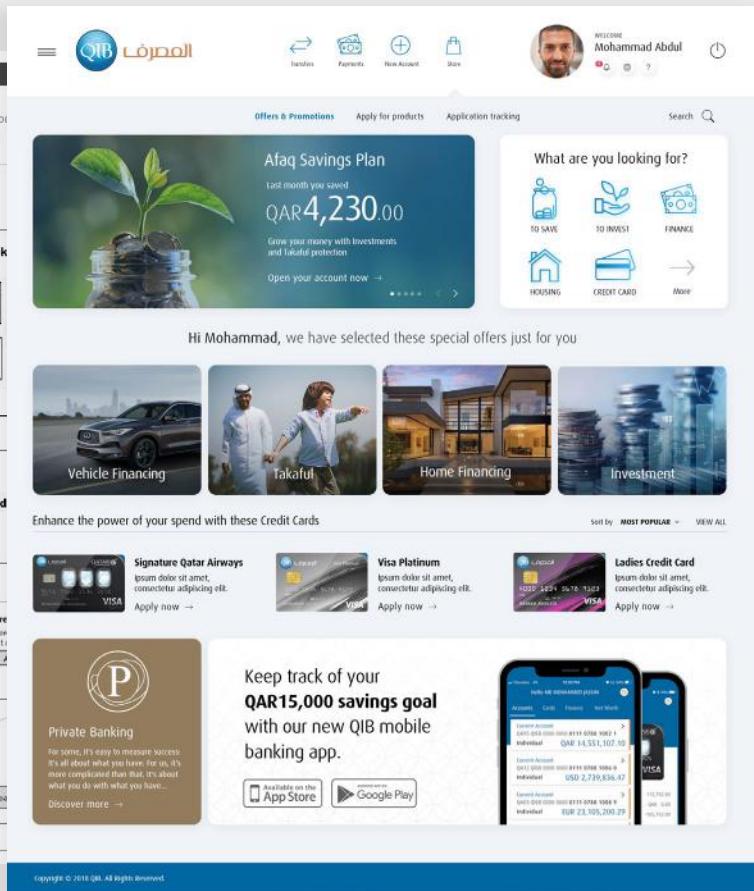

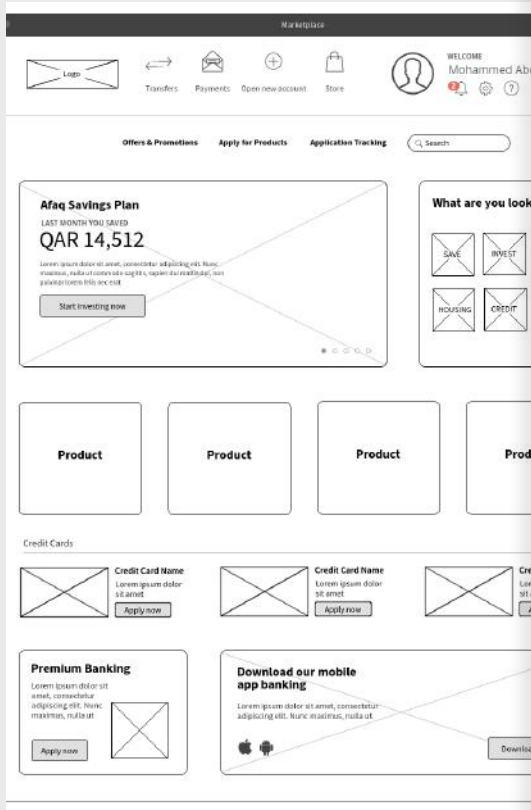

Each customer has their own portfolio of products, different goals & reasons to visit and use the functionalities available online. Thus the design incorporated a superior level of personalization to give the customer control over what they see.

I achieved this by dividing the dashboard into strategically-curated widgets that can be switched on/off, moved higher and lower within the page as well as have the options of being individually customized.

Qatar Islamic Bank

## UI/UX

### The Marketplace

A GCC study showed that about 45% of banking customers researched banking products and services digitally before making final purchase decisions. More importantly, 30-35% of those who conducted research through digital channels said the information they found changed their minds about their purchases.

For banks, their websites are fast becoming primary a lead generation platform. Optimising marketing messages hugely assists in improving this outcome. Backbase allows for customization of these messages. Added to this, today, customers are extremely comfortable buying from a marketplace environment.

The recommendation was developing a QIB product marketplace that is completely customized for the customer. Products and services are pushed based on current portfolio and customer data.

## UI/UX & Campaign concept

Conceptualised the brand platform 'Together We Are \_' and did UI/UX work for the microsite, brand mobile app and interactive corporate wall apps.

## THE PRIDE OF OMAN

The Sultanate of Oman is working towards attaining self-sufficiency in the food sector, an achievement that will benefit all its citizens. Mazoon Dairy Company SAOC (MDC) is pioneering this initiative, specifically in dairy and juices.

Mazoon Dairy Company will be a fully integrated project within the Sultanate of Oman, serving the wider region. Once operational, the facility will produce fresh milk, milk products and juices of the highest quality and will be marketed under a brand that inspires national pride.

### CEO's Message

Richard McClintock, a Latin professor at Hampden-Sydney College in Virginia, looked up one of the more obscure Latin words, consectetur, from a Lorem Ipsum passage, and going through the cites of the word in classical literature, discovered the undoubtable source. Lorem Ipsum comes from sections 1.10.32 and 1.10.33 of "de Finibus Bonorum et Malorum" (The Extremes of Good and

WHAT OUR CUSTOMERS HAVE TO SAY

A good Jeweller is identified based on their reputation

[LEAVE US FEEDBACK >](#)

**James & Annabel • AUSTRALIA**

Tobert and Mona were incredibly professional and helpful when it came to custom designing our engagement ring. Robert sourced the sapphire exclusively for us and met us two-three times to discuss the various design options. After being to numerous other jewellers stores, it was great to finally meet decent people who knew what they were talking about and were only interested in providing us with great honest advice and services. We would highly recommend them to anybody!

**Charlie & Grainne • UK**

Mona & Robert, we wanted to thank you so much for your help, advice and support in enabling me to put an amazing sparkler on my (now) fiancée's finger! She absolutely loves it! I will be singing your services from the rooftop to all my friends and you have designed a work of art that has blinded me several times, not to mention engraved a permanent smile on G's face! Thank you both once again and look forward to seeing you soon for the wedding band consultancy! Cheers, Charlie & Grainne

**Leyla & Rayan • DUBAI**

Buying a diamond and designing an engagement ring are – let's face it – not things which many men have any experience of. And this reality could easily be taken advantage of by jewellers of ill-repute, so the primary focus in the search phase is to find someone trustworthy, experienced and creative to handle this hugely important task. And it was these three qualities that I found in Mona and Robert at Diana Jewellery, and they didn't disappoint with the end product. They combine high-tech 3D modelling capabilities with a well-equipped in-house workshop, not to mention a combined experience of several decades in the business. I feel very thankful – and very lucky – to have found them in my search for a bespoke diamond engagement ring, and the new 'ring bearer' is certainly very happy to wear this little piece of art on her finger! I'm pretty happy about that too!

**Stuart & Henrieta • DUBAI**

I started with a very vague idea of the engagement ring I wanted to design for Henrieta. She had no idea I was going to propose, and it had to be perfect. I met with Robert and Mona after visiting a couple of other jewellers designers in Dubai. I found them to be so much more passionate about my idea than others and were very accommodating when it came to timelines and budget. Robert particularly gave me valuable advice on the complexity of the design based on this years experience, and I could feel him getting more and more excited about what we came up with as we worked through the process. The diamond they sourced was also perfect. Henrieta is absolutely delighted with the ring, and receives compliments on a daily basis from colleagues and complete strangers!

**J&J • UK**

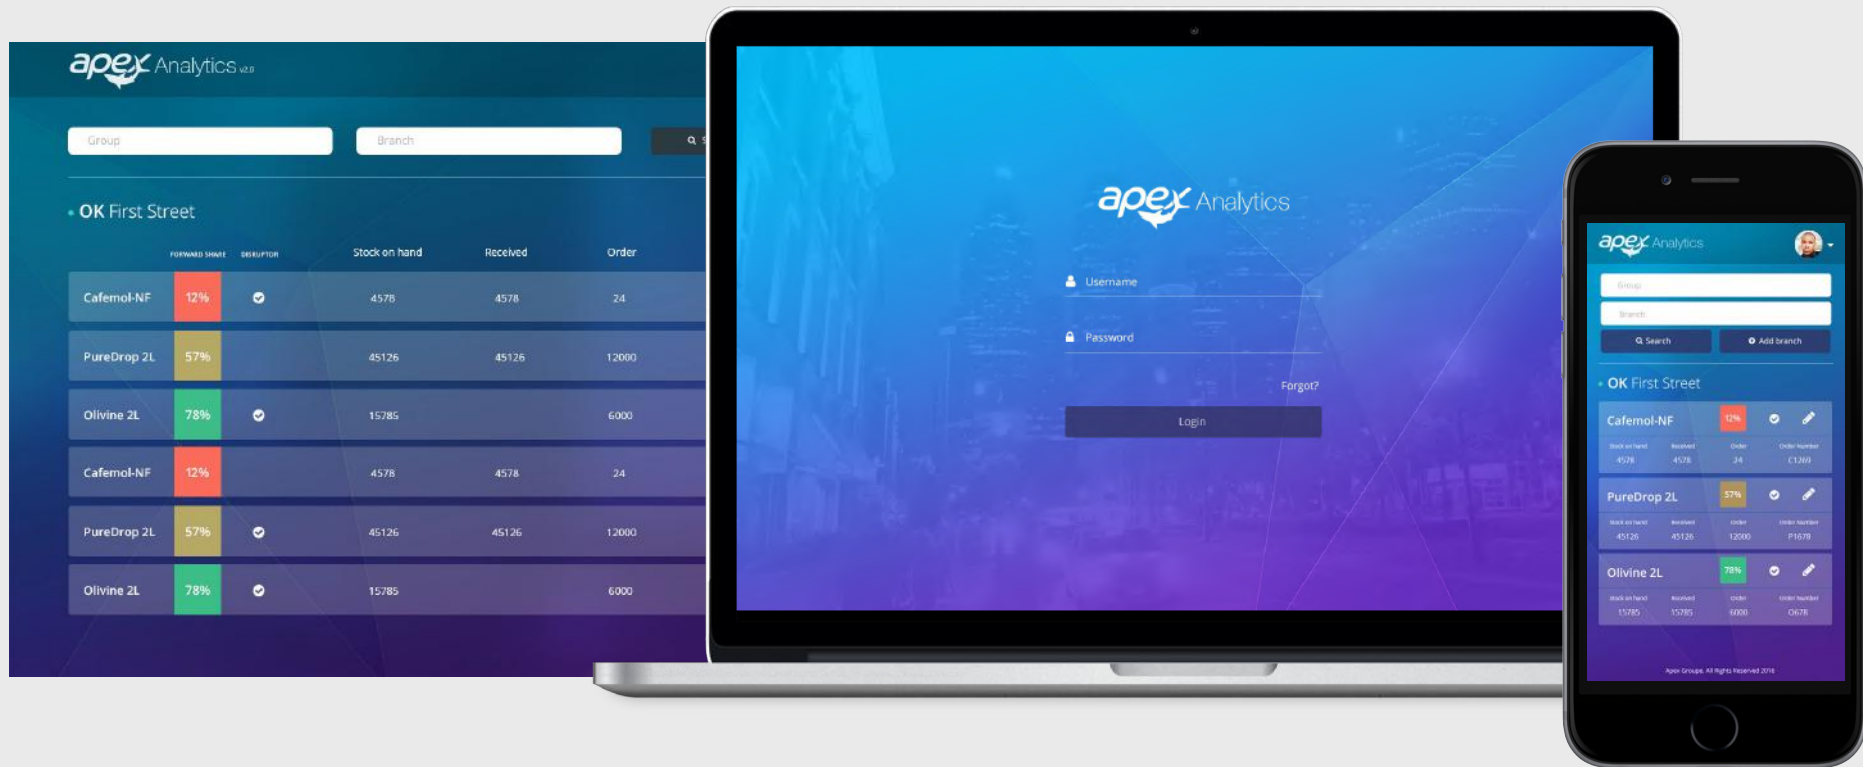

"Having spent six months researching engagement rings and prices following the loss of my wife's ring, I stumbled across Diana Jewellery. What a find, customer service and competitive pricing ticked and best of all unbelievable quality and workmanship that goes into each and every one of their pieces. The diamond engagement ring I designed turned out to be better than I imagined and my wife amazed that the replacement was even more amazing than the original ring we lost! I highly recommend Diana Jewellery if you are looking for exceptional quality and

**Myra Roberts • UK**

"Dear Robert & Mona, I want to thank you formally for making my beautiful ring. You have interpreted my drawing so very well and it feels and looks stunning. Because it opens to fit over my knuckle means I always be able to wear it if my hands become more arthritic. There must be thousands of women who need your expertise to make their jewellery wearable. I'll be singing your praises whenever I wear it. Please pass on my thanks and admiration to your craftsmen for the amazing workmanship. My scribbles are finally a reality!"

### Our Music Journey

The Zimpraise choir has mastered the synchronicity and dynamism of gospel music.

This is arguably one of the best gospel choirs ever to emerge from Zimbabwe. The musical connection that permeates is something that exists far beyond anyone's power. The ensemble is a combination of their voices and dance. The fusion of the national dance *jerusarema*, dances from Zimbabwe and Africa's various music genres, *borrowdale* dance, *chumba*, *musevera*, and contemporary dances sets them apart from the rest of the pack. Zimpraise has recorded over 5 albums since its inception.

### Our Records

Zimpraise produced 6 projects volume 1 and 2 are audio productions which were directed and produced by Macdonald Chidavaenzi.
